---

### Summary

Full Stack Developer with an A. S. in Network Administration and a love of learning and all things tech. Strong attention to detail with excellent soft and problem solving skills, which translate to taking any assigned task from A to Z.

### Technical Skills

Web Developer Skills: Git, Javascript, Bootstrap, JQuery, MongoDB

IT Skills: Troubleshooting, Diagnostic, Repair, Installation

### Experience

*Category Merchandiser/Stock crew Manager* 2007-Present  
*Nugget Markets Inc.* Sacramento, CA

Design new layouts of categories companywide utilizing critical thinking and problem solving skills to obtain desired final product. I led a stock crew team to be the most efficient team in the company, utilizing my communication skills and hard work while fostering a fun work environment.

*Team Lead/C.O.S.* 2001-2007  
*Sam's Club* Santa Fe, NM

I supervised a team in Electronics/ Grocery departments by helping members with questions on electronics and other products. I helped maintain the front end of club by leading team of cashiers in best practices and company standards.

### Projects

teachers PET | <https://github.com/TimGangl/teachersPET> | <https://tranquil-coast-15604.herokuapp.com/login>

- A class management tool for educators. Individual student data, assignments, and lesson plans can be added deleted and displayed for each class.
- My role in this project was primarily in design and front end, but I also helped with routes.
- We used the following for this project: EJS, Javascript, Json Web Token, Bootstrap, mySQL, Node.js.

Sacramento Sound Machine | <https://github.com/TimGangl/Sacramento-Sound-Machine> | <https://github.com/TimGangl/Sacramento-Sound-Machine>

- A fun app intended for the non-musician, musician and everyone in between. Drum pads to practice beats on and a drum sequencer so you can create a beat and practice your instrument over said drum beat.
- My role in this project was Concept and the entire front end.
- We used the following for this project: WebAudio API, Random Kanye Quotes API, AJAX, Javascript, Bootstrap, Firebase.

## **Education**

*Bootcamp Certificate: UC Davis, Sacramento, CA*

A six month concentrated program aimed at obtaining programming skills in HTML5, CSS3, JQuery,. Bootstrap, Firebase, Node JS, MySQL, MongoDB, Express, Handlebars.JS & React.JS.

*A.S Network Administration & CompTIA A+ Cert: MTI College, Sacramento, CA*

A two year program aimed at gaining skills and education in the Computer Science field ranging from hardware, software, networks and real world troubleshooting.
